

Exhibit 1

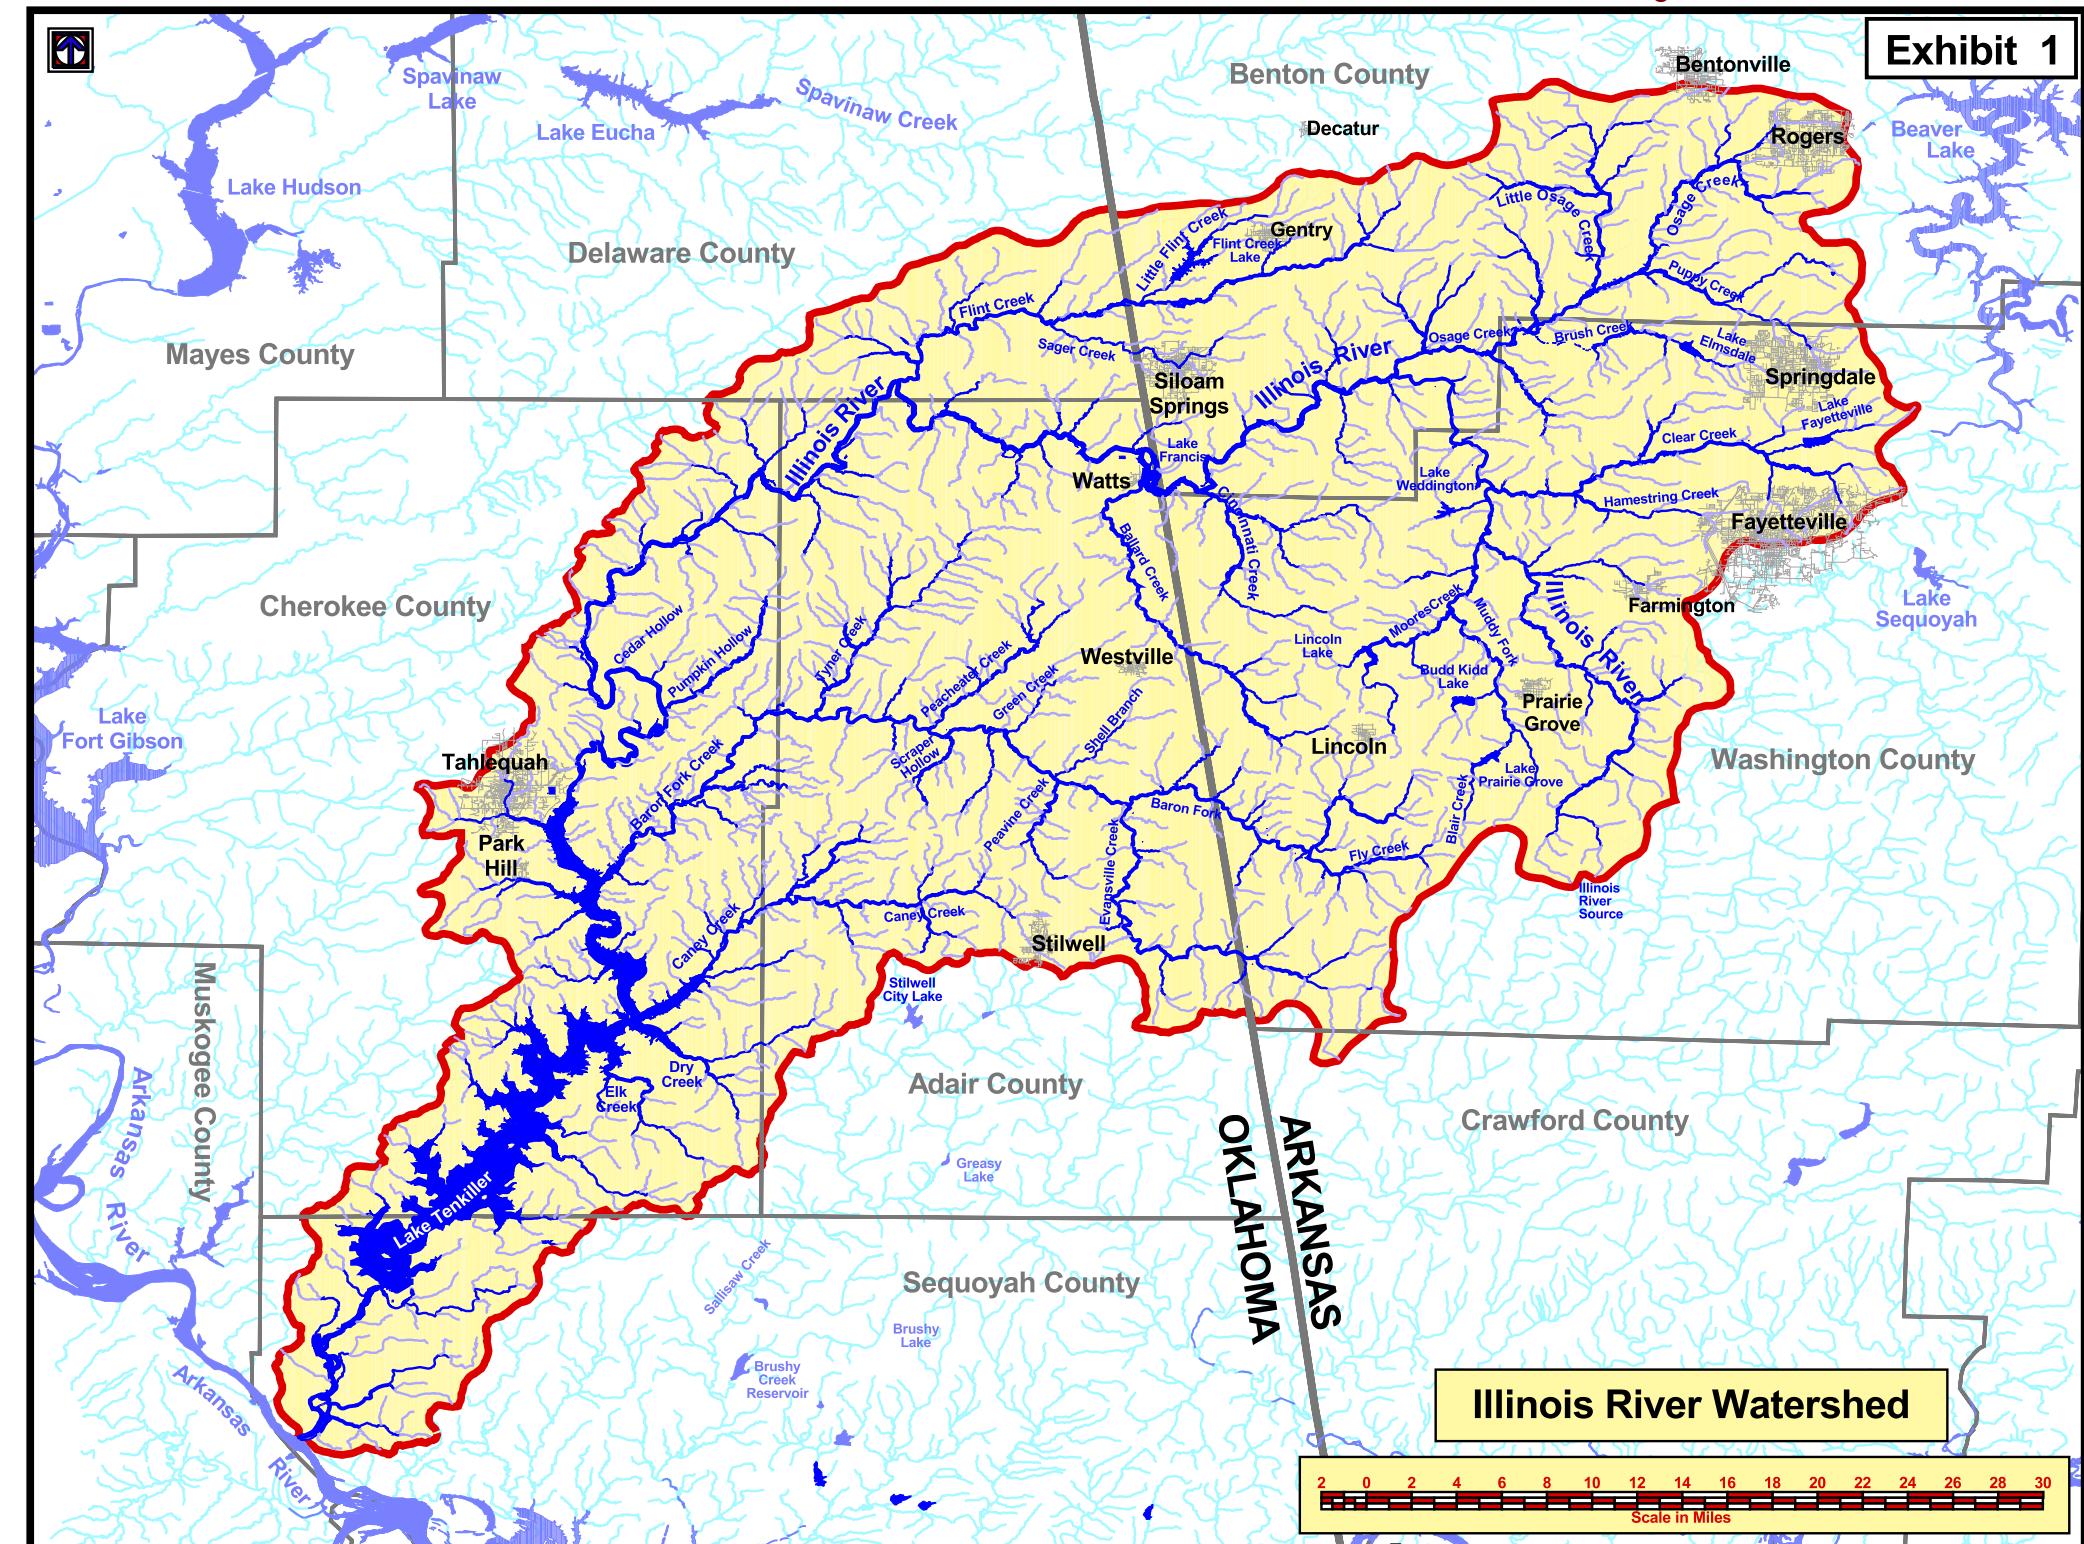

Exhibit 2

Exhibit 3

Exhibit 4

A photograph showing a close-up view of a rocky, shallow stream bed. The water is clear enough to see the bottom, which is covered in various sized rocks, some of which are partially submerged. A thick layer of green, slimy algae or moss covers most of the exposed rock surfaces. There are also some brown, dried plant fragments and small white flowers scattered among the rocks. The lighting suggests it's a sunny day, casting shadows on the rocks.
